

## SATRIYO BUDI UTOMO

Backend Engineer | Tech Lead | Product/Technical PM  
Tegal, Central Java, Indonesia  
[satriyobudiu@gmail.com](mailto:satriyobudiu@gmail.com) | +62 813-8853-6931

---

## PROFESSIONAL SUMMARY

Results-driven technical leader with 8+ years of experience architecting scalable backend systems, managing cross-functional engineering teams, and delivering data-driven product solutions. Proven ability to lead high-impact projects from concept to launch across startups and enterprise environments. Adept in PHP/Laravel, MySQL, and data tools like Looker and Metabase. Strong in Agile delivery, stakeholder communication, and aligning business and technical goals to deliver measurable outcomes.

---

## CORE SKILLS & TOOLS

- **Backend Development:** Laravel, PHP, REST API, MySQL, PostgreSQL
  - **Project & Product Management:** Agile/Scrum, SDLC, Sprint Planning, Stakeholder Management
  - **Data & Visualization:** Looker, Metabase, SQL, Data Analysis, Data Visualization
  - **Dev Tools:** Git, Jira, Postman, Figma, Trello, Notion
  - **Documentation & Architecture:** ERD, API Contracts, Flowcharts, Infrastructure Planning
- 

## WORK EXPERIENCE

### CTO & Co-Founder

Kommerce – Purbalingga | Oct 2022 – Present

- Spearheaded the development and deployment of scalable backend systems, enabling platform growth to 10K+ monthly users.
- Managed 4 technical divisions (40+ engineers) and implemented SOPs, boosting delivery speed by 25%.
- Delivered infrastructure design and architecture documentation used across 3 internal product lines.
- Reported to C-level and investors; introduced impact dashboards and roadmap visibility.
- Facilitated technical knowledge sharing and mentorship, raising junior engineer retention by 30%.

### Senior Backend Developer – Chapter Lead

Kommerce – Purbalingga | Jun 2021 – Sep 2022

- Led backend system design for 5+ products using Laravel & PostgreSQL, improving reliability and scalability.
- Created standardized API contracts and ERD blueprints, reducing onboarding time for new devs by 40%.

- Mentored 4 engineers and implemented peer-review process, increasing code quality and velocity.
- Orchestrated sprint planning and stakeholder communication for product team alignment.

### **Backend Developer (Remote)**

*Webimp – Singapore | Jan 2022 – Apr 2022*

- Delivered 5 international client projects on time using Laravel and WordPress custom integrations.
- Reduced go-live cycles by 30% through proactive backend planning and mockup alignment.
- Translated Figma designs into fully functional backend services, improving delivery precision.

### **Backend Developer**

*Dvoretzky Indonesia – Jakarta | Nov 2020 – May 2021*

- Architected and delivered backend solutions for 6 business clients, contributing to a 20% improvement in client retention.
- Led requirement gathering and collaborated with front-end teams for end-to-end SDLC.
- Reviewed and optimized existing legacy systems, reducing system error rate by 35%.

### **IT Programmer**

*Centratama Group – Jakarta | Sep 2018 – Sep 2020*

- Developed internal tools and APIs used by 100+ staff across multiple departments.
- Created SSO system using Windows AD for internal apps, improving security and usability.
- Led system enhancement projects, improving performance KPIs by 15%.

### **System Analyst & Programmer**

*Tiga Inti Perkasa Tech – Surakarta | Jan 2017 – Aug 2018*

- Led analysis and documentation for 10+ ERP custom deployments.
- Produced client-ready project docs (mockups, timelines, ERDs) reducing approval loops by 50%.

### **Junior Programmer**

*Gamatechno – Jakarta | Jan 2016 – Mar 2017*

- Delivered internal tools and supported 12+ deployment projects across departments.
- Assisted sales and tech implementation teams, ensuring product-market alignment.

---

## **EDUCATION**

### **Diploma in Informatics Management**

*Politeknik LP3I – Jakarta | 2016*

---

## **CERTIFICATION & CLOUD TRAINING**

- **Preparing for your Professional Data Engineer Journey**  
*Google Cloud, Earned May 6, 2025*  
[View Credential](#)

- **Baseline: Infrastructure**  
*Google Cloud, Earned Nov 25, 2022*  
[View Credential](#)
  - **Set Up an App Dev Environment on Google Cloud**  
*Google Cloud, Earned Nov 24, 2022*  
[View Credential](#)
